

## Environmental Policies & Procedures

As a company we recognise that we have a responsibility to the local community and to the environment as a whole to reduce the environmental impact caused through its operations. Senior Management/Directors are committed to developing policies and procedures through the course of its business. Due to the nature of the business the organisation currently employs working practices, which have a minimum environmental impact, but shall continue to develop policies of minimum waste in order to strive for continuous improvement.

As a matter of policy all staff and management shall seek to implement and promote environmentally friendly working practices and programmes with the aim of:

1. Eliminating or reducing waste as far as is reasonably practicable
2. Striving toward a paperless system by the continued introduction of IT for all departments
3. Practicing good housekeeping in all areas
4. Ensuring all staff practice minimum waste techniques by turning off un-needed lighting, not allowing taps to drip and closing doors and windows to retain heat

118 Security is committed to:

1. Complying with all relevant environmental law and regulation.
2. Continual improvement, to reduce environmental impacts.
3. Ensuring that long-term costs and long-term environmental benefits are taken into consideration.
4. Ensuring that environmental impacts are assessed as part of tendering for contracts.
5. Increasing awareness of environmental.
6. Implementing management systems, education, training and communications to minimize environmental impact.
